## Special Events Permit

### Traffic Control Training and Safety Equipment Certification

Check the appropriate box:

For this event, traffic control duties will be furnished by personnel supplied and/or arranged by the event sponsor. (Complete certification section below)

For this event, traffic control duties have been contracted to another organization. The contact person for that organization is responsible for completing the below certification and/or verification of training for personnel who will be utilized for traffic control duties during the event. I understand that the Special Event application cannot be considered for approval until this form has been completed and submitted. The contact information of the organization providing traffic control follows:

\_\_\_\_\_  
(Name of company or organization providing traffic control services)

\_\_\_\_\_  
(Name of contact person)

\_\_\_\_\_  
(Contact number)

\_\_\_\_\_  
(E-mail address for contact person)

#### Certification Section

I, \_\_\_\_\_, representing \_\_\_\_\_  
(Print full name) (Name of sponsoring organization/entity)

\_\_\_\_\_, sponsoring and responsible for the special event/parade, namely,

\_\_\_\_\_ to be held on \_\_\_\_\_,  
(Name of event/parade) (Event date)

wholly or partly to be held in Elizabethtown Borough, Lancaster County, have filed a Special Event Application with the Borough of Elizabethtown that includes a traffic control plan requiring personnel responsible for the control, direction, detouring and safety of vehicular and pedestrian traffic. As part of the traffic control plan I certify and attest, with my signature below, that all personnel to be utilized for controlling, directing, detouring and safety of vehicles and persons, have received and are currently certified in Pennsylvania Dept. of Transportation Publication 408 Flagger Training or equivalent training. I further certify that all traffic control personnel will wear appropriate safety equipment while actively engaged in traffic control or similar duties. The minimum equipment is outlined below:

- During daylight hours - American National Standards Institute (ANSI) Class 2 vests.
- During hours of darkness - American National Standards Institute (ANSI) Class 3 vests and an operative flashlight with an orange traffic wand affixed to the illuminated end of the flashlight.
